These maximum rates of per diem allowances are established for travel in foreign areas. THE MAXIMUM RATES ARE NOT AUTHORIZED WHEN FREE OR LOW COST LODGING AND MEALS ARE PROVIDED. For regulations pertaining to these rates, see the Federal Travel Regulations (FPMR 101-7, Section 1-7.3) as established by the General Services Administration and implementing regulations established by the appropriate Government agency. Foreign Service Agencies - See 6 FAM 154; Defense Agencies - See Chapter 4 of the JTR Vol. 1 for Uniformed Services and JTR Vol. 2 for Civilians.

(e) - This symbol denotes excess or near-excess currency countries. Agencies should instruct travelers in these countries to minimize use of U.S. dollars for travel and per diem expenses, e.g., purchase of foreign currency only from U.S. Government disbursing facilities and the elimination of any direct use of dollars. See FTR 1-10.4.

PD SUPPLEMENT 259
DECEMBER 1, 1985

S1.76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

MAXIMUM TRAVEL PER DIEM ALLOWANCES FOR FOREIGN AREAS
SECTION 925, A SUPPLEMENT TO THE
STANDARDIZED REGULATIONS (Government Civilians, Foreign Areas)

These maximum rates of per diem allowances are established for travel in foreign areas. THE MAXIMUM RATES ARE NOT AUTHORIZED WHEN FREE OR LOW COST LODGING AND MEALS ARE PROVIDED. For regulations pertaining to these rates, see the Federal Travel Regulations (FPMR 101-7, Section 1-7.3) as established by the General Services Administration and implementing regulations established by the appropriate Government agency. Foreign Service Agencies - See 6 FAM 154; Defense Agencies - See Chapter 4 of the JTR Vol. 1 for Uniformed Services and JTR Vol. 2 for Civilians.

(e) - This symbol denotes excess or near-excess currency countries. Agencies should instruct travelers in these countries to minimize use of U.S. dollars for travel and per diem expenses, e.g., purchase of foreign currency only from U.S. Government disbursing facilities and the elimination of any direct use of dollars. STANDARDIZED REGULATIONS (Government Civilians, Foreign Areas)

PD SUPPLEMENT 260
JANUARY 1, 1986

S 1.76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

These maximum rates of per diem allowances are established for travel in foreign areas. THE MAXIMUM RATES ARE NOT AUTHORIZED WHEN FREE OR LOW COST LODGING AND MEALS ARE PROVIDED. For regulations pertaining to these rates, see the Federal Travel Regulations (FPMR 101-7, Section 1-7.3) as established by the General Services Administration and implementing regulations established by the appropriate Government agency. Foreign Service Agencies - See 6 FAM 154; Defense Agencies - See Chapter 4 of the JTR Vol. 1 for Uniformed Services and JTR Vol. 2 for Civilians.

(e) - This symbol denotes excess or near-excess currency countries. Agencies should instruct travelers in these countries to minimize use of U.S. dollars for travel and per diem expenses, e.g., purchase of foreign currency only from U.S. Government disbursing facilities and the elimination of any direct use of dollars. See FTR 1-10.4.

PD SUPPLEMENT 261
FEBRUARY 1, 1986

S 1.76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

Revisions to the U.S. Department of State Standardized Regulations (Government Civilians, Foreign Areas) are available by subscription from the Superintendent of Documents.

These Government-wide regulations receive wide distribution and use. They contain regulations for 16 major types of allowances or benefits. These allowances and benefits are generally available to civilian employees of all U.S. Government agencies in foreign areas. The SR(GC,FA) are issued in loose-leaf manual form with some text and allowance rate revisions normally effective at the beginning of each bi-weekly pay period. Printed amendments to Section 920 of the SR(GC,FA) are issued every four weeks and may be ordered from the Government Printing Office. Section 920 of the SR(GC,FA) contains about 50 pages of post classification and payment tables for some 700 foreign locations pertinent to temporary lodging, housing, cost-of-living and education allowances plus hardship differential rates.

These maximum rates of per diem allowances are established for travel in foreign areas. THE MAXIMUM RATES ARE NOT AUTHORIZED WHEN FREE OR LOW COST LODGING AND MEALS ARE PROVIDED. For regulations pertaining to these rates, see the Federal Travel Regulations (FPMR 101-7, Section 1-7.3) as established by the General Services Administration and implementing regulations established by the appropriate Government agency. Foreign Service Agencies - See 6 FAM 154; Defense Agencies - See Chapter 4 of the JTR Vol. 1 for Uniformed Services and JTR Vol. 2 for Civilians.

(e) - This symbol denotes excess or near-excess currency countries. Agencies should instruct travelers in these countries to minimize use of U.S. dollars for travel and per diem expenses, e.g., purchase of foreign currency only from U.S. Government disbursing facilities and the elimination of any direct use of dollars. See FTR 1-10.4.

PD SUPPLEMENT 262

S1.76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

STANDARDIZED REGULATIONS (Government Civilians, Foreign Areas)

These maximum rates of per diem allowances are established for travel in foreign areas. THE MAXIMUM RATES ARE NOT AUTHORIZED WHEN FREE OR LOW COST LODGING AND MEALS ARE PROVIDED. For regulations pertaining to these rates, see the Federal Travel Regulations (FPMR 101-7, Section 1-7.3) as established by the General Services Administration and implementing regulations established by the appropriate Government agency. Foreign Service Agencies - See 6 FAM 154; Defense Agencies - See Chapter 4 of the JTR Vol. 1 for Uniformed Services and JTR Vol. 2 for Civilians.

(e) - This symbol denotes excess or near-excess currency countries. Agencies should instruct travelers in these countries to minimize use of U.S. dollars for travel and per diem expenses, e.g., purchase of foreign currency only from U.S. Government disbursing facilities and the elimination of any direct use of dollars. See FTR 1-10.4.

PD SUPPLEMENT 263
APRIL 1, 1986

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

MAXIMUM TRAVEL PER DIEM ALLOWANCES FOR FOREIGN AREAS
SECTION 925, A SUPPLEMENT TO THE
STANDARDIZED REGULATIONS (Government Civilians, Foreign Areas)

These maximum rates of per diem allowances are established for travel in foreign areas. THE MAXIMUM RATES ARE NOT AUTHORIZED WHEN FREE OR LOW COST LODGING AND MEALS ARE PROVIDED. For regulations pertaining to these rates, see the Federal Travel Regulations (FPMR 101-7, Section 1-7.3) as established by the General Services Administration and implementing regulations established by the appropriate Government agency. Foreign Service Agencies - See 6 FAM 154; Defense Agencies - See Chapter 4 of the JTR Vol. 1 for Uniformed Services and JTR Vol. 2 for Civilians.

(e) - This symbol denotes excess or near-excess currency countries. Agencies should instruct travelers in these countries to minimize use of U.S. dollars for travel and per diem expenses, e.g., purchase of foreign currency only from U.S. Government disbursing facilities and the elimination of any direct use of dollars. See FTR 1-10.4.

PD SUPPLEMENT 264
MAY 1, 1986

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

PD SUPPLEMENT 265
JUNE 1, 1986

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

S1.76/3:__

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

PD SUPPLEMENT 267
AUGUST 1, 1986

S1.76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

(Effective July 1, 1986)

For travel in foreign areas involving special or unusual circumstances, the reimbursement of actual and necessary itemized daily subsistence expenses shall not exceed 150% of the applicable foreign travel per diem allowance (rounded to the next higher dollar) or the applicable per diem allowance plus $50, whichever is greater. For regulations governing the reimbursement of actual subsistence expenses, see Part 8 of the Federal Travel Regulations of the General Services Administration, or pertinent agency implementing regulations.

(e) - This symbol denotes excess or near-excess currency countries. Agencies should instruct travelers in these countries to minimize use of U.S. dollars for travel and per diem expenses, e.g., purchase of foreign currency only from U.S. Government disbursing facilities and the elimination of any direct use of dollars. See FTR 1-10.4.

PD SUPPLEMENT 268
SEPTEMBER 1, 1986

S 1.76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

PD SUPPLEMENT 269

S1.76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

PD SUPPLEMENT 270

S1.76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).

PD SUPPLEMENT 271
DECEMBER 1, 1986

S1. 76/3-2:

PER DIEM ALLOWANCES FOR TRAVEL IN FOREIGN AREAS

The foreign travel per diem allowance is a payment in lieu of reimbursement for actual subsistence expenses. The payment is provided to an employee and eligible dependents for daily expenses while on temporary travel status in the listed localities on official business away from an official post of assignment. The established rates are maximum amounts. Under travel regulations implemented by the General Services Administration and individual agency authorities, certifying officials are required to reduce the maximum rate when necessary to maintain a level of payment consistent with necessary travel costs.

The travel per diem allowance is intended to substantially cover the cost of lodging and meals at adequate, suitable and moderately-priced facilities including costs for mandatory service charges, tips, taxes and related incidentals such as laundry and dry cleaning. Per diem is not intended to cover costs, for example, of alcoholic drinks, floor shows or other nonessential diversions.

Rates of travel per diem in foreign countries are based primarily on costs reported in the Hotel and Restaurant Section (Form DSP-23W) submitted by foreign posts. This report includes prices for hotel rooms and meals that represent the facilities most frequently used which are moderately priced and suitable for typical Federal travelers. When the average cost for a single room plus three meals (including taxes, service charges and tips) has been computed, the resulting estimate is increased ten percent to cover expenditures for laundry, dry cleaning, etc. The total is then rounded to the nearest dollar and becomes the new travel per diem rate.

REQUESTS FOR PER DIEM REVISIONS

In order for the Department of State to maintain appropriate travel per diem rates in foreign areas, employees of the Federal Government who believe that the per diem rate authorized for a particular area is inappropriate for expenses normally encountered while on temporary duty are encouraged to notify their respective agency travel officials. Those agencies that receive complaints about a per diem rate for a locality where there is frequent travel may submit a request to the Department of State for review. This request should include cost data on lodging and meals using Form DSP-23W. This information must be submitted in accordance with instructions in Sections 074.3 and 950 (pages 28-30) of the Standardized Regulations (Government Civilians, Foreign Areas).
